

# SUPER SWIFT SERIES **FAST PATROL BOAT**

---

## SUPER SWIFT SERIES

### FAST PATROL BOAT

The Super Swift series is a range of ultra high speed Fast Patrol Boats (FPB) designed for interdiction, interception and patrolling. Customised for military and law enforcement applications, each FPB features an air cavity hull that enables the craft to reach high speeds of up to 70 knots, depending on the craft size.

The Super Swift series has exceptionally high seakeeping and manoeuvring abilities and is best suited for very high speed activities such as pursuit and arrest, search and rescue, offshore patrolling and escort, surveillance and covert surveillance, as well as border patrol. Significant improvements in ride and crew comfort levels are key characteristics of Super Swift- ACH series with reduced ship motions and accelerations.

### SUPER SWIFT SERIES- AIR CAVITY HULL
