

Maritime Security & Auditor Courses

ISM AUDITOR COURSE

AIM

The aim of the course is to provide ship and shore personnel with the basic tools necessary to derive the full safety and loss control program benefits attainable through an effective safety management system.

OBJECTIVE OF COURSE

This course places particular emphasis on the objectives, skills and techniques of effective internal auditing and offers successful delegates the opportunity for qualifications which satisfy part of the formal training requirements for individuals seeking registration under the IRCA Maritime Auditor Registration Scheme which complies with the IMO stated requirements.

COVERAGE OF ISM AUDITOR COURSE

Through a highly participative combination of presentations, group discussions, case studies plus individual and syndicate exercises, you will learn about and understand:

- The background, objectives and impact of the ISM Code.
- The principles of the ISM Code as a management system model
- The review and interpretation of the content of the ISM Code
- The basics of safety management and risk in shipping
- How to achieve continual improvement in a management system.
- The role and responsibilities of the internal auditor
- The principles and practice of auditing.
- The planning and preparation and conduct of the audit
- Audit techniques
- Reporting the audit, non-conformity and its resolution.

DURATION: 2 Days

COURSE FEE: S\$678.00 (subjected to prevailing GST)

ASSESSMENT AND CERTIFICATION

There is a course assessment at the end of the course. Participants must pass the assessment to successfully complete the course. Upon passing, a certificate will be issued.
