Images of ActivePro System

1. Photo 1

Caption: The new ActivePro System comprises a patented micro-pleated ActivePro Mask and Active Ventilator to deliver a distinctive experience of ultra-breathability and ultra-dry comfort.

2. Photo 2

Caption: The ActivePro Mask delivers supreme breathability with its ultra-low respiratory resistance while the Active Ventilator increases fresh air intake by actively venting exhaled air trapped within the mask.

3. Photo 3

Caption: The ActivePro System is the most breathable protective mask system for professionals.

4. Photo 4

Caption: The ActivePro System provides ultra-breathable and long-lasting dry comfort with every breath.
